

Girl Scout

Ambassadors

Entrepreneur Accelerator

Activity - Creating Jared Boxes

Step 1

Explain what Jared Boxes are

Jared's Story

Talk to the girls and explain to them how Jared Boxes got started. Why are we making boxes today? How does this connect to entrepreneurship? Can we relate starting our own business to starting our own non-profit?

Step 2

Gather materials to make Jared Boxes

Sorting

Leaders should print out labels and notecards from the Jared Box website prior. Spread out all of the toys and other objects across a table. Organize them by type. Have the girls help and start thinking about what they would want to receive or what younger kids would want if they were in the hospital.

Step 3

Show the girls how to make Jared Boxes

How To

Show the girls live how to make a Jared Box, or use videos located on the Jared Box website, or the video that came with these lesson plans.

Step 4 Make the boxes

Implementation

Have the girls work individually or small groups of 2 people in order to strengthen their team work skills. Have adults nearby to check that girls are filling the boxes appropriately. Fill the shoe box sized plastic container with toys.

Step 5 Reflect & Connect

Completion

Talk to the girls about what they just did and how this connects to designing their own product. Do girls have the knowledge to create their own business and relate it to a non-profit? Take a picture of the girls with the boxes to commemorate their hard work and send it to info@thejaredbox.com.

Now that I've earned this badge, I can give service by:

- Making more Jared Boxes at home
- Starting my own business or non-profit and the products that go with them?
- Collecting donations for The Jared Box Project
